

Interactive comment on “A simple weather generator for applications with limited data availability: TEmpotRain 1.0 for temperatures, extraterrestrial radiation, and potential evapotranspiration” by Gerrit Huibert de Rooij

G.H. de Rooij

gerrit.derooij@ufz.de

Received and published: 27 June 2018

Dear Executive Editor,

The supplement contains both codes and their executables, in compliance with the journal policy.

Your sincerely,

Gerrit de Rooij
