Dear Executive Editor,

thank your for mentioning the possibility to provide a source code DOI with a restricted access. The source code and necessary input files have been uploaded to zenodo archive (https://doi.org/10.5281/zenodo.3386969). Access will be granted if license requirements are met.

In addition to that scripts for analysis and plotting are provided as an open source archive as well (https://doi.org/10.5281/zenodo.3387004).

The section 'Code availability' will be updated with these references after the discussion with the reviewers has started.

Best regards,

Harald Rybka
