Dear Astrid Kerkweg,

Thank you very much for noticing the problems and for the comments.

* About the version number of MEDUSA

We will add a version number to the title in the next version of the manuscript.

C1

* About the link

Although the link in the code availability section of the current version of the manuscript works properly in my environment, here we specify the location of the database again.

<https://doi.pangaea.de/10.1594/PANGAEA.905821>

As to the appearance in the manuscript, we will arrange it carefully in the next (or, final) version of the manuscript.

Best regards,

Takasumi Kurahashi-Nakamura
