Received and published: 5 December 2019

Dear Astrid Kerkweg,

Thank you very much for your comments. The acronym NUIST stands for Nanjing University of Information Science and Technology. We will add the definition in the abstract. The title will be changed to 'Marine biogeochemical cycling and oceanic CO₂ uptake simulated by the NUIST Earth System Model version 3 (NESM v3)'. All these revisions will be done after the interactive discussion.

Best,

Yifei Dai
