Interactive comment on "A Spatiotemporal Weighted Regression Model (STWRv1.0) for Analyzing Local Non-stationarity in Space and Time" *by* Xiang Que et al.

Anonymous Referee #1

Received and published: 13 July 2020

I am happy with the reply of the authors. I recommend this work for publication. It clearly provides new insights into temporal GWR.

Regarding the number of case studies, I understand the answer to the authors. I think that this is ultimately an editorial issue. I mean, the paper seems to be too long, but if this is Ok for the editor, it is Ok also for me.
