Dear editors,

thank you for changing the manuscript type to the more fitting type.

As suggested in SC1, I am working towards getting a permanently archived copy of the versions of the model code created. I am however unsure as to who to include as the authors of the archived copy. I asked the original authors of the code for advise, and they suggested that I get in touch with GMD about this.

Could you advise me on the best practice on who to include as the authors for the

archived copy? Should it be the authors of this manuscript, with references to the technical reports and journal articles describing the code included in the metadata and abstract. Or alternatively, should the author list on the repository include all the authors of the model codes?

Best regards, Ilkka Matero
