

Reply to the review of "Evaluation of regional climate models ALARO-0 and REMO2015 at 0.22 resolution over the CORDEX Central Asia domain" by Top et al. 2020

List of relevant changes

Dear Editor,

Thank you for mentioning the minor detailed corrections. We took all of them into account. According to your suggestion, we changed the scales of the maps to a sequential color range (Figures 3, 6, 8, 10 and S4). We are grateful for the effort you have put in the review process of our paper. The contribution of the reviewers and yourself have been added to the acknowledgement section of the text.
