This is a very short review to state that, in my opinion, the authors have responded sufficiently to all the points raised by Anonymous Reviewer 2 in the open review at Climate of the Past (<https://www.clim-past-discuss.net/cp-2018-106/>).

The original review at CP can be found here: <https://www.clim-past-discuss.net/cp-2018-106/cp-2018-106-RC2.pdf> And the authors' response here: <https://www.clim-past-discuss.net/cp-2018-106/cp-2018-106-AC4-supplement.pdf>
