Thank you for your thorough review of our paper. All of your thoughtful suggestions have been implemented and it is our belief that these suggestions have made it a stronger paper that will be more relevant to the community. Most of your suggestions were added within the same portions of the paper, but in some cases, the suggestions were addressed in other areas of the paper because of relevance.

Interactive comment on Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2020-133>, 2020.
