Interactive comment on "A spatially-explicit approach to simulate urban heat islands in complex urban landscapes" *by* Martí Bosch et al.

Martí Bosch et al.

marti.bosch@epfl.ch

Received and published: 29 March 2021

Dear Prof. Rodrigues,

thank you for your reviewer comment which is very flattering. I believe that GMD articles are published in a two-column format which might change the vertical spacing, so we will make sure that there is proper spacing after equation 9 (and after all the other equations, tables and figures of the manuscript) at the proofing stage.

Best regards,

Martí
