Interactive comment on "TransEBM v. 1.0: Description, tuning, and validation of a transient model of the Earth's energy balance in two dimensions" *by* Elisa Ziegler and Kira Rehfeld

Elisa Ziegler and Kira Rehfeld

eziegler@iup.uni-heidelberg.de

Received and published: 5 January 2021

We thank Kelin Zhuang for his highly favorable review and for his comments.

In response to the improvements suggested by the referee, we will

- modify the Buhler et al. citation so that its status is apparent,
- combine the two sentences in L13 as suggested,
- correct the typos in L18 and L23,
- and add the suggested reference to the discussion of hysteresis in EBMs, which

Printer-friendly version

Discussion paper

indeed fits this section very well.

We thank the referee again for his remarks and feedback,

sincerely,

Elisa Ziegler & Kira Rehfeld
