Received and published: 30 November 2020

Dear Astrid Kerkweg,

Thank you for making us aware of the latest guidelines. Since we can not make changes to the original submitted manuscript, we will during the review process add the model version number to the title, e.g. “Vertical cloud radiative heating in the tropics: Confronting the EC-Earth v3.3.1/3P model with satellite observations”.

As the review process comes to an end, we will upload our model data and final analysis scripts to Zenodo and update the section “Code and data availability” with the DOI

C1

numbers.

Best Regards Erik Johansson on behalf of all co-authors.
