Concerning: Accepted manuscript gmd-2020-282 entitled "Simulation of O3 and NOX in Sao Paulo street urban canyons with VEIN (v0.2.2) and MUNICH (v1.0)" by Gavidia-Calderón M. E. et al.

Dear editor,

We are grateful for your help and time during this process. In this last submission, we added the full first name of all the authors and updated the copyright in Figure 5 to "© Google Maps 2019", according to the remarks from the preceding review file validation.

Finally, we added "Department of Atmospheric Sciences" to affiliation 1, to complete the full institutional address.

The rest of the text, tables, and figures remain the same as the accepted version of the manuscript.

Many thanks.

Mario E. Gavidia-Calderón
