Interactive comment on "SCARLET-1.0: SpheriCal Approximation for viRtuaL aggrEgaTes" *by* Eduardo Rossi and Costanza Bonadonna

Eduardo Rossi and Costanza Bonadonna

eduardo.rossi@unige.ch

Received and published: 10 April 2021

We really thank the reviewer for his help in revising and improving the manuscript. We believe that his great effort really helped us to improve the general structure of the paper, to correct some parts of it and to better clarify the scientific context where SCARLET can be profitably used. Thanks a lot again. Here we attach one single pdf with all the replies to his major and minor points.
