

Dr. Kelly and Reviewers:

Thank you for your consideration of this manuscript and reviews. After discussing details with Dr. Kelly, I will carry out the following plan:

1. Move sections 2 and 3 of the manuscript to another paper, and submit this new paper to another journal.
2. Revise sections 1, 4, and 5 according to the suggestions in the reviews, and submit the result as a revision to this manuscript.

Thanks,
Andrew Bradley
