

## **Answer to Topical Editor Comment:**

Comments to the Author:

Thank you for working through the comments. You have addressed well the comments.

As a last task, I would like to ask you to revise the closing paragraph in the conclusions. You give an overview of things that could be done in the future, but in my view you do not use your own results sufficiently.

I would appreciate if you could work in your results a bit more and leave a few hypotheses for testing for future studies rather than only mentioning the topics.

Many thanks for the good comment. We have revised the closing paragraph and included a few results and hypotheses (see the updated manuscript and the latexdiff pdf for details).
