

1. Your tables contain coloured cells or/and coloured values. Please note that this will not be possible in the final revised version of the paper due to HTML conversion of the paper. When revising the final version, you can use footnotes or italic/bold font. But if the colour spectrum is necessary and cannot be exchanged for footnotes, bold, or italic, then please inform us via email.
2. Please ensure that the colour schemes used in your maps and charts allow readers with colour vision deficiencies to correctly interpret your findings. Please check your figures using the Coblis – Color Blindness Simulator (<https://www.color-blindness.com/coblis-color-blindness-simulator/>) and revise the colour schemes accordingly.

1. In the new version of the manuscript, I removed the coloured cells

2. I checked the figures using the Coblis-color blindness simulator and it looks like they allow readers with colour vision deficiencies to correctly interpret our findings.

3. I added the author contribution and competing interest sections that were missing
