

Dear Peter Düben and topical editors of the Geoscientific Model Development Journal,

Thank you for accepting our manuscript “Global, high-resolution mapping of tropospheric ozone – explainable machine learning and impact of uncertainties” for publication.

Please note that I have added two statements to the acknowledgments in this version. The requirements of acknowledging DFG have changed, and we would like to thank the anonymous reviewers:

"[...] Open Access publication funded by the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) – 491111487. We thank two anonymous reviewers for their suggestions to improve this work."

Kind regards,

Clara Betancourt
