Dear Andrea,

Thanks a lot for extending the deadline. That helped a lot.

I am glad to report, that Matthes et al. 2023 was submitted to GMDD last week. Note, that we decided to rename aCCF-V1.1 to aCCF-V1.0A. I changed the publication and the supplement accordingly (see uploaded files).

Sorry to say that Weder et al. (2022) is still in preparation.

Best regards,

Simone
