1. In the Supplement on the first page, last paragraph: 128 for 100^3 m^3 volume. You missed the exponent 3 after 100.
2. Rosenbrock
3. quantities

Response:

Thank you for pointing out the typos. We have fixed them accordingly. Additionally, in the supplemental material, we removed the title page to meet GMD standards, changed the numbering for sections, equations, and figures, revised Fig. S2 for readers with colour vision deficiencies, and fixed the DOI in the references.
