

Dear Editor,

Based on the reviewer's suggestion, we have corrected the region indicated in Figure 4 from Niño 4 to Niño 3, as advised (please refer to Line 176 and the caption of Figure 4). This adjustment has been implemented in the current uploaded manuscript titled "ENSO statistics, teleconnections, and atmosphere-ocean coupling in the Taiwan Earth System Model version 1". We are grateful for your valuable help throughout the review process.

Sincerely,

Yi-Chi Wang and Coauthors
